WORK HISTORY

Samples Coordinator, QA Inventory, Machine Operator - Schreiber Foods, Logan, UT   *10+ years*

VALUES TO AN ORGANIZATION

Team Player	Enthusiastic
Detail Oriented	Friendly
Open-minded	Trustworthy

Projects

Portfolio – A web page to display information about me, my skills, and past projects.

Your Places – A MERN full stack app where users can create their own login and add places they have visited with pictures. Places can be shown on Google Maps using the Google API

ReactMeals – A mock food order app built using React. Fetches the menu from a database.

Fylo – A mock web page styled using Tailwind and utilizing a dark mode.

Next Events – Created using Next.js and MongoDB, a full stack app that displays and filters events. Allows comments to be left for events.
